DETAILED ACTION

Response to Amendment

1. The amendment filed January 10, 2005, has been received and entered. Claims 2-12, 15, and 18-26 are now allowed.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 14 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

Claims 14 and 17 depend on claims 13 and 16, respectively. However, both claim 13 and claim 16 have been cancelled. For examination purposes, the examiner has assumed that both claim 14 and claim 17 depend on claim 2.

See MPEP § 608.01(n).

4. Claims 17 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

Art Unit: 2612

Claim 17 recites the limitation “the plurality of banks” on lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Claim 27 recites the limitations “each bank” and “other banks” on lines 13 and 14, respectively. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

5. Claims 2-12, 15, and 18-26 are allowed.

No prior art could be located that teaches or fairly suggests an analog/multi-level memory with a plurality of odd- and even-numbered pipelines that perform simultaneous programming with each using one of two voltages.

6. Claims 14, 17, and 27 would be allowable if rewritten to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

No prior art could be located that teaches or fairly suggests an analog/multi-level memory with a plurality of odd- and even-numbered pipelines that perform simultaneous programming with each using one of two voltages.

Conclusion

7. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
